Evolution WR

THE FIVE STAR ★★☆☆☆

An inTENTional Systems Exclusive

We've replaced the sewn-in rings on twin pole mids with a sealed-in shackle to prevent water leaking through the needle holes. The all-white design of the shackle enhances the interior aesthetics of the tent top and protects the top from abrasions.

A WIDE RANGE OF SIZES TO CHOOSE FROM

SINGLE CENTER POLES:

- 40'x40' 2-piece ends with 20' mid-sections.
- 50'x50' 2-piece ends with 20' and 30' mid-sections.

TWIN CENTER POLES:

- 60'x60' 2-piece ends with 20' and 30' mid-sections.
- 80'x60' 2-piece ends with 30' and 40' mid-sections.
- 100'x60' 2-piece ends with 30' and 40' mid-sections.

WHY CHOOSE THE EVOLUTION WR?

State-of-the-Art Engineering: Offers a certified wind rating of 76 mph, making it a worry-free option for your customers.

Superior Weather Protection: Increased pitch in spanner section sheds water faster. Flaps extend to the peak and wraps around the top pin of the center pole, and an improved flexible peak cap conforms to the peak area, creating a tight seal.

Versatile Components: Side poles are 8' tall with 2" diameter and center poles are sectional for easy transport (both are made from Schedule 40 aluminum). Easily upgrade to Keder side poles for use with Keder sidewalls.

DISCOVER MORE!
